Role title: Company Research Senior Analyst. Automotive. Europe

Location: Hybrid, office location London Bridge

Reporting to: Heads of Research

Start date: ASAP

Term: Permanent

Organisation and role background
Carbon Tracker’s mission is to help markets and state actors align energy system capital allocation to the finite planetary limits of the Paris Agreement. Our success is measured by our ability to mobilise investors, policymakers and regulators into action around climate risk resulting in an orderly wind down of fossil fuels. Our analysis of unburnable carbon, stranded assets, and wasted capital has reframed the debate around climate change risk.

We are building a new team, who will create an exciting new workstream covering companies in Europe, the US and Asia. The team will produce analysis on the effective wind down and climate and financially secure transition plans for companies, which will provide investors with tools and evidence for impactful engagements and arguments with management teams.

We are looking for an experienced and innovative European Automotive Analyst. This role is one of the first hires for the new team and integral in setting the strategy, methodology, models and plan for the Company Research Workstream. The Company Research team member with work closely with our established sector teams.

Role and responsibilities
- Produce cutting edge research and analysis on companies’ Paris alignment, transition plans and create pathways for alignment alongside strategic and financial outlooks.
- Provide investors with guidance and analysis on implications and engagement with company managements, shape the debate to catalyse change and achieve our mission.
- Build models for drawing future assumptions using existing data and contributing and collaborating to refine and evolve our data offering.
- Create research programme and develop methodology for workstream with Head of Company Research.
- Write compelling and persuasive narratives that will effect change.
- Leverage and build our network, raise our profile, amplify and advocate our message externally.
- Impactfully and confidently articulate complex analysis to investors. Fund raising responsibilities to include networking, input into large proposals, pitches, relationship management.
- Work with Outreach to engage investors in our work.
- Support and be an advisor for automotive CA100+ activities.
- Deliver agreed outputs to time and budget.
- Adhere to and support production, distribution and all Carbon Tracker processes.
- Be a role model and uphold our values of respect, accountability, efficiency and effectiveness.

Required experience
- Proven industry experience (at least five to seven years) in the automotive sector, with a focus on understanding economics and finances.
- Solid understanding of company financials, reports and accounting.
- Strong knowledge and financial modelling and valuation expertise.
● Able to deeply analyse and company strategies alongside financial market implications.
● Programme and project planning experience.
● Adept at sourcing credible data and incorporating this data into financial, economic and market models.
● Excellent written and verbal communication skills, able to translate complexity clearly and concisely.
● Ability to command an audience and present our work.
● Have an outward mindset with ability to influence investors to facilitate and effect behavioural change in the markets.
● Experience in working in a deadline driven environment.

Required attributes
● Passionate about climate change and the energy transition.
● Highly motivated, self-starter who is driven to grow the role and increase responsibilities.
● Bring ideas and challenges to grow and expand our analytical expertise.
● Methodical and organised with a high attention to detail.
● Team player, high integrity, diligent, flexible.

Package
● £80-100K dependent upon experience, 7% pension contribution, 25 days holiday including bank holidays with one extra day granted for service, capped at 5, cycle to work scheme, discretionary bonus (funding and company performance dependent), flexible working environment.

Applicant information
● The closing date for applications is 28 February 2022.
● Applications without a covering letter will not be considered.
● Carbon Tracker can only consider candidates who are eligible to work in the UK.
● We strive to ensure that opportunities to work and develop at Carbon Tracker are open to all. We welcome applications from all qualified applicants, regardless of age, disability, gender identity or gender expression, race, ethnicity, religion or belief, sex, sexual orientation, and all equality characteristics.
● Carbon Tracker supports flexibility, and we welcome career returners.

GDPR Disclaimer
Carbon Tracker will process any data provided in response to this open role for recruitment purposes only. We will hold personal data on candidates in our applicant tracking system which is fully compliant with current GDPR legislation until our open role is filled. We cannot state the exact time period for this because it varies role to role. The period is over when a candidate accepts our job offer and starts in the new role. When that period is over we will delete your data. You have the right to lodge a complaint about the way we handle your data with the Information Commissioner’s Office (ICO) or you can contact us directly if you have any concerns you would like to discuss.
